DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 44 and 51-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 44 is misdescriptive of the disclosed structure since the shaft material should be bent and not merely capable of being bent. Claim 51 is vague in its recital of "distal tip portion a distal point" in line 4. Claim 55, line 3 is vague in stating "sufficient to prevent arching".

Claim Objections

Claims 43, 50, and 57 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. These claims attempt to limit the structure of the high frequency voltage supply; however, such an element has not been positively claimed.

Allowable Subject Matter

Claims 26-33, 35-41, 45, 46, 48, and 49 are allowed.

Claims 44 and 51-56 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
